## Independent Auditor's Report on the Financial Schedules

March 4, 2003

The Honorable Mike Cox  
Attorney General  
G. Mennen Williams Building  
Lansing, Michigan

Dear Mr. Cox:

We have audited the financial schedules of the Department of Attorney General for the fiscal years ended September 30, 2002 and September 30, 2001, as identified in the table of contents. These financial schedules are the responsibility of the Department's management. Our responsibility is to express an opinion on these financial schedules based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial schedules are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial schedules. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial schedule presentation. We believe that our audit provides a reasonable basis for our opinion.

As described in Note 1b, the financial schedules include only the revenues and transfers and the sources and disposition of authorizations for the Department of Attorney General's General Fund accounts, presented using the current financial resources measurement focus and the modified accrual basis of accounting. Accordingly, these financial schedules do not purport to, and do not, constitute a complete financial presentation of either the Department or the State's General Fund in accordance with accounting principles generally accepted in the United States of America.

In our opinion, the financial schedules referred to in the first paragraph present fairly, in all material respects, the revenues and transfers and the sources and disposition of authorizations of the Department of Attorney General for the fiscal years ended September 30, 2002 and September 30, 2001, on the basis of accounting described in Note 1b.

In accordance with *Government Auditing Standards*, we have also issued a report dated March 4, 2003 on our tests of the Department's compliance with certain provisions of laws, regulations, contracts, and grants and on our consideration of its internal control over financial reporting. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of our audit.

The schedule of expenditures of federal awards, required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and other supplemental financial schedules, as identified in the table of contents, are presented for purposes of additional analysis and are not a required part of the Department's financial schedules referred to in the first paragraph. Such information has been subjected to the auditing procedures applied in the audit of the financial schedules and, in our opinion, is fairly stated, in all material respects, in relation to the financial schedules taken as a whole.

## Notes to the Financial Schedules

### Note 1 Significant Accounting Policies

#### a. Reporting Entity

The accompanying financial schedules report the results of the financial transactions of the Department of Attorney General for the fiscal years ended September 30, 2002 and September 30, 2001. The financial transactions of the Department are accounted for principally in the State's General Fund and are reported on in the *State of Michigan Comprehensive Annual Financial Report (SOMCAFR)*.

The notes accompanying these financial schedules relate directly to the Department of Attorney General. The *SOMCAFR* provides more extensive general disclosures regarding the State's Summary of Significant Accounting Policies; Budgeting, Budgetary Control, and Legal Compliance; Pension Benefits and Other Postemployment Benefits; and Compensated Absences.

#### b. Measurement Focus, Basis of Accounting, and Presentation

The financial schedules contained in this report are prepared using the current financial resources measurement focus and the modified accrual basis of accounting, as provided by generally accepted accounting principles applicable to governments. Under the modified accrual basis of accounting, revenues are recognized as they become susceptible to accrual, generally when they are both measurable and available. Revenues are considered to be available when they are collected within the current period or soon enough thereafter to pay liabilities of the current period. Expenditures generally are recorded when a liability is incurred; however, certain expenditures related to long-term obligations are recorded only when payment is due and payable.

The accompanying financial schedules include only the revenues and transfers and the sources and disposition of authorizations for the Department of Attorney General's General Fund accounts. Accordingly, these financial schedules do not purport to, and do not, constitute a complete financial presentation of either the Department or the State's

General Fund in accordance with generally accepted accounting principles.

Note 2 Revenues Collected by Other Departments

At the other State departments' discretion, nonfederal revenues are sent to the Department of Attorney General to fund its operations, which include providing legal services to the other State departments. From the \$3,145,000 reported on this line for fiscal year 2001-02, \$193,762 was related to services revenue, \$1,337,053 to licenses and permits revenue, and \$1,614,285 to miscellaneous revenue. From the \$2,882,937 reported on this line for fiscal year 2000-01, \$186,623 was related to services revenue, \$1,425,607 to licenses and permits revenue, and \$1,270,707 to miscellaneous revenue.

Note 3 Schedule of Sources and Disposition of General Fund Authorizations

The various elements of the schedule of sources and disposition of General Fund authorizations are defined as follows:

- a. General purpose appropriations: Original appropriations and any supplemental appropriations that are financed by General Fund/general purpose revenues.
- b. Restricted financing sources: Collections of restricted revenues, restricted transfers, and restricted intrafund expenditure reimbursements to finance programs as detailed in the appropriations act. These financing sources are authorized for expenditure up to the amount appropriated. Depending upon program statute, any amounts received in excess of the appropriation are, at year-end, either converted to general purpose financing sources and made available for general appropriation in the next fiscal year or carried forward to the next fiscal year as either restricted revenues - authorized or restricted revenues - not authorized.
- c. Intrafund expenditure reimbursements: Funding from other General Fund departments to finance a program or a portion of a program that is the responsibility of the receiving department.
- d. Encumbrances: Authorizations carried forward to finance payments for goods or services ordered in the old fiscal year but not received by fiscal

year-end. These authorizations are generally limited to obligations funded by general purpose appropriations.

- e. Restricted revenues - not authorized: Revenues that, by statute, are restricted for use to a particular program or activity. However, the Department had not received legislative authorization to expend the revenues.
- f. Balances lapsed: Authorizations that were unexpended and unobligated at the end of the fiscal year. These amounts are available for legislative appropriation in the subsequent fiscal year.

## Independent Auditor's Report on Compliance and on Internal Control Over Financial Reporting

March 4, 2003

The Honorable Mike Cox  
Attorney General  
G. Mennen Williams Building  
Lansing, Michigan

Dear Mr. Cox:

We have audited the financial schedules of the Department of Attorney General for the fiscal years ended September 30, 2002 and September 30, 2001, as identified in the table of contents, and have issued our report thereon dated March 4, 2003. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States.

### Compliance

As part of obtaining reasonable assurance about whether the Department's financial schedules are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grants, noncompliance with which could have a direct and material effect on the determination of financial schedule amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

### Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Department's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial schedules and not to provide assurance on internal control over financial reporting. Our consideration of internal control over financial reporting would not necessarily disclose all matters in internal control over financial reporting that might be material weaknesses. A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements

caused by error or fraud in amounts that would be material in relation to the financial schedules being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving internal control over financial reporting and its operation that we consider to be material weaknesses.

This report is intended solely for the information and use of the State's management, the Legislature, federal awarding agencies, and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties. However, this report is a matter of public record and its distribution is not limited.

Independent Auditor's Report on Compliance With  
Requirements Applicable to Each Major Program  
and on Internal Control Over Compliance in  
Accordance With OMB Circular A-133

March 4, 2003

The Honorable Mike Cox  
Attorney General  
G. Mennen Williams Building  
Lansing, Michigan

Dear Mr. Cox:

Compliance

We have audited the compliance of the Department of Attorney General with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement that are applicable to each major federal program for the two-year period ended September 30, 2002. The Department's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each major federal program is the responsibility of the Department's management. Our responsibility is to express an opinion on the Department's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to in the previous paragraph that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Department's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the Department's compliance with those requirements.

In our opinion, the Department of Attorney General complied, in all material respects, with the requirements referred to in the second previous paragraph that are applicable to each major federal program for the two-year period ended September 30, 2002.

#### Internal Control Over Compliance

The management of the Department is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the Department's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133.

Our consideration of internal control over compliance would not necessarily disclose all matters in internal control that might be material weaknesses. A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with applicable requirements of laws, regulations, contracts, and grants that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving internal control over compliance and its operation that we consider to be material weaknesses.

This report is intended solely for the information and use of the State's management, the Legislature, federal awarding agencies, and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties. However, this report is a matter of public record and its distribution is not limited.
