OFFICE OF THE AUDITOR GENERAL

## AUDIT REPORT

THOMAS H. McTAVISH, C.P.A.  
AUDITOR GENERAL

The auditor general shall conduct post audits of financial transactions and accounts of the state and of all branches, departments, offices, boards, commissions, agencies, authorities and institutions of the state established by this constitution or by law, and performance post audits thereof.

– Article IV, Section 53 of the Michigan Constitution

Audit report information can be accessed at:

*Office of the Auditor General*  
**REPORT SUMMARY**

*Financial Audit*  
*Commercial Mobile Radio Service*  
*Emergency Telephone Fund*  
*Department of Treasury and*  
*Michigan Department of State Police*  
*October 1, 2004 through September 30, 2006*

Report Number:  
 271-0265-07

Released:  
 June 2007

*A financial audit determines if the financial schedules are fairly presented, considers internal control over financial reporting, and determines compliance with State compliance requirements material to the financial schedules. This financial audit of the Commercial Mobile Radio Service (CMRS) Emergency Telephone Fund was required by Act 78, P.A. 1999.*

**Financial Schedules:**

**Auditor's Report Issued**

We issued an unqualified opinion on the CMRS Emergency Telephone Fund's financial schedules.

~ ~ ~ ~ ~

**Internal Control Over Financial Reporting**

We did not report any findings related to internal control over financial reporting.

~ ~ ~ ~ ~

**Noncompliance and Other Matters  
 Material to the Financial Schedules**

We did not identify any instances of noncompliance or other matters applicable to the financial schedules that are required to be reported under *Government Auditing Standards*.

~ ~ ~ ~ ~

**Background:**

The CMRS Emergency Telephone Fund was established by Act 78, P.A. 1999. The Fund was created to implement Act 32, P.A. 1986, known as the Emergency Telephone Service Enabling Act, and the Federal Communications Commission's wireless emergency service order. The emergency wireless service order provides for enhanced 911 service to identify the location and telephone number of a mobile telephone caller. Act 244, P.A. 2003, revised the service fees and allowable expenditures of the Fund and Act 89, P.A. 2004, revised allowable expenditures from the restricted revenues. Act 249, P.A. 2006, extended the wireless emergency service order from December 31, 2006 to December 31, 2007.

Dear Sheriff Gribler, Mr. Kleine, and Colonel Munoz:

This is our report on the financial audit of the Commercial Mobile Radio Service Emergency Telephone Fund, Department of Treasury and Michigan Department of State Police, for the period October 1, 2004 through September 30, 2006.

This report contains our report summary, our independent auditor's report on the financial schedules, and the Commercial Mobile Radio Service Emergency Telephone Fund financial schedules and supplemental financial schedule. This report also contains our independent auditor's report on internal control over financial reporting and on compliance and other matters and a glossary of acronyms and terms.

We appreciate the courtesy and cooperation extended to us during this audit.

## Independent Auditor's Report on the Financial Schedules

Sheriff Dale R. Gribler, Chair  
Emergency Telephone Service Committee  
and  
Mr. Robert J. Kleine  
State Treasurer  
Richard H. Austin Building  
Lansing, Michigan

Colonel Peter C. Munoz, Director  
Michigan Department of State Police  
714 South Harrison Road  
East Lansing, Michigan

Dear Sheriff Gribler, Mr. Kleine, and Colonel Munoz:

We have audited the accompanying financial schedules of the Commercial Mobile Radio Service Emergency Telephone Fund, Department of Treasury and Michigan Department of State Police, for the fiscal years ended September 30, 2006 and September 30, 2005, as identified in the table of contents. These financial schedules are the responsibility of the Commercial Mobile Radio Service Emergency Telephone Fund's management. Our responsibility is to express an opinion on these financial schedules based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial schedules are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial schedules. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial schedule presentation. We believe that our audit provides a reasonable basis for our opinion.

As described in Note 1, the financial schedules present only the revenues and the sources and disposition of authorizations for the Commercial Mobile Radio Service Emergency Telephone Fund's accounts, presented using the current financial resources measurement focus and the modified accrual basis of accounting. Accordingly, these financial schedules do not purport to, and do not, constitute a complete financial presentation of either the Commercial Mobile Radio Service Emergency Telephone

Fund or the State's General Fund in conformity with accounting principles generally accepted in the United States of America.

In our opinion, the financial schedules referred to in the first paragraph present fairly, in all material respects, the revenues and the sources and disposition of authorizations of the Commercial Mobile Radio Service Emergency Telephone Fund for the fiscal years ended September 30, 2006 and September 30, 2005 on the basis of accounting described in Note 1.

In accordance with *Government Auditing Standards*, we have also issued our report dated April 18, 2007 on our consideration of the Commercial Mobile Radio Service Emergency Telephone Fund's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The supplemental financial schedule, as identified in the table of contents, is presented for purposes of additional analysis and is not a required part of the Commercial Mobile Radio Service Emergency Telephone Fund's financial schedules referred to in the first paragraph. Such information has been subjected to the auditing procedures applied in the audit of the financial schedules and, in our opinion, is fairly stated, in all material respects, in relation to the financial schedules taken as a whole.

The accompanying notes are an integral part of the financial schedules.

## Notes to the Financial Schedules

### Note 1 Significant Accounting Policies

#### a. Reporting Entity

The accompanying financial schedules report the results of the financial transactions of the Commercial Mobile Radio Service\* (CMRS) Emergency Telephone Fund, Department of Treasury and Michigan Department of State Police, for the fiscal years ended September 30, 2006 and September 30, 2005. The financial transactions of the Fund are accounted for in the State's General Fund and are reported on in the *State of Michigan Comprehensive Annual Financial Report (SOMCAFR)*.

The notes accompanying these financial schedules relate directly to the CMRS Emergency Telephone Fund. The *SOMCAFR* provides more extensive disclosures regarding the State's significant accounting policies; budgeting, budgetary control, and legal compliance; and pension benefits and other postemployment benefits.

The CMRS Emergency Telephone Fund was established by Act 78, P.A. 1999. The Fund was created to implement Act 32, P.A. 1986, known as the Emergency Telephone Service Enabling Act, and the Federal Communications Commission's wireless emergency service order. The emergency wireless service order provides for enhanced 911 service to identify the location and telephone number of a mobile telephone caller. In addition, the Emergency Telephone Service Enabling Act established the Emergency Telephone Service Committee within the Michigan Department of State Police. The Committee provides recommendations on technical and operational Statewide standards for preparing and implementing 911 service and also authorizes the distribution of money from the Fund. Act 244, P.A. 2003, revised the service fees and allowable expenditures of the Fund. Act 89, P.A. 2004, revised allowable expenditures from the restricted revenues. Act 249, P.A. 2006, extended

\* See glossary at end of report for definition.

the wireless emergency service order (Act 32, P.A. 1986, as amended) from December 31, 2006 to December 31, 2007.

b. Measurement Focus, Basis of Accounting, and Presentation

The financial schedules contained in this report are presented using the current financial resources measurement focus and the modified accrual basis of accounting, as provided by accounting principles generally accepted in the United States of America. Under the modified accrual basis of accounting, revenues are recognized as they become susceptible to accrual, generally when they are both measurable and available. Revenues are considered to be available when they are collected within the current period or soon enough thereafter to pay liabilities of the current period. Expenditures generally are recorded when a liability is incurred; however, certain expenditures related to long-term obligations are recorded only when payment is due and payable.

The accompanying financial schedules present only the revenues and the sources and disposition of authorizations for the CMRS Emergency Telephone Fund's accounts. Accordingly, these financial schedules do not purport to, and do not, constitute a complete financial presentation of either the Fund or the State's General Fund in conformity with accounting principles generally accepted in the United States of America.

Note 2 Schedule of Revenues

Effective January 1, 2006, Section 484.1408 of *Michigan Compiled Laws* provides for a commercial mobile radio service (CMRS) supplier\* or reseller to include a service charge of \$.29 per month for each number assigned to a CMRS customer that has a billing address in the State. Prior to January 1, 2006, the service charge was \$.52 per month. The CMRS supplier or reseller shall list a service charge as a separate line item on each bill and remit its collections to the CMRS Emergency Telephone Fund that is maintained with the Department of Treasury. Funds collected as the service charge is distributed to the entities identified in Note 3c.

\* See glossary at end of report for definition.

Note 3 Schedule of Sources and Disposition of Authorizations

The various elements of the schedule of sources and disposition of authorizations are defined as follows:

- a. Balances carried forward: Restricted revenues - not authorized or used that were not spent as of the end of the prior fiscal year. Annual legislative appropriation is required to authorize the expenditure of the restricted revenues.
- b. Restricted financing sources: Collections of restricted revenues to finance programs as detailed in the appropriations act. These financing sources are authorized for expenditure up to the amount appropriated. Any amounts not expended at year-end are carried forward to the next fiscal year as restricted revenues - not authorized or used.
- c. Expenditures and transfers out:
  - (1) CMRS suppliers: These expenditures represent costs incurred by CMRS suppliers for providing and installing equipment that implements the wireless emergency service order. The submission of an invoice and approval by the Emergency Telephone Service Committee are required before funds can be distributed to the CMRS suppliers.
  - (2) Counties - Equal distributions: These expenditures represent distributions made by the Department of Treasury to counties that were wireless phase I\* and wireless phase II\* compliant for implementing the wireless emergency service order.
  - (3) Counties - Per capita distributions: These expenditures represent distributions made by the Department of Treasury to counties that were wireless phase I and wireless phase II compliant, based on the county populations, for implementing the wireless emergency service order.

\* See glossary at end of report for definition.

- (4) Public safety answering points\*: These expenditures represent payments to public safety answering points for training personnel assigned to 911 centers. The submission of a request for funds and approval by the Emergency Telephone Service Committee are required before funds can be distributed to the public safety answering points.
  - (5) State police administration: These expenditures represent costs incurred by the Michigan Department of State Police for administration of the enhanced 911 service and the 911 coordinator.
  - (6) State Building Authority public safety communications: This transfer of funds was to allow the State Building Authority to pay bond obligations. The bonds were issued to finance the Statewide communication towers that are maintained by the Michigan Department of State Police and used primarily by State and local law enforcement agencies. The transfer was authorized by Act 74, P.A. 2006.
- d. Balances carried forward restricted revenues - not authorized or used: Revenues that, by statute (Act 32, P.A. 1986, as amended), are restricted for use to a particular program or activity. However, the expenditure of the restricted revenues is subject to annual legislative appropriations. See the supplemental schedule of carried forward restricted revenues - not authorized or used for more details on program or activity restrictions.

\* See glossary at end of report for definition.

## Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters

Sheriff Dale R. Gribler, Chair  
Emergency Telephone Service Committee  
and  
Mr. Robert J. Kleine  
State Treasurer  
Richard H. Austin Building  
Lansing, Michigan

Colonel Peter C. Munoz, Director  
Michigan Department of State Police  
714 South Harrison Road  
East Lansing, Michigan

Dear Sheriff Gribler, Mr. Kleine, and Colonel Munoz:

We have audited the financial schedules of the Commercial Mobile Radio Service Emergency Telephone Fund, Department of Treasury and Michigan Department of State Police, for the fiscal years ended September 30, 2006 and September 30, 2005, as identified in the table of contents, and have issued our report thereon dated April 18, 2007. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States.

### Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Commercial Mobile Radio Service Emergency Telephone Fund's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial schedules and not to provide an opinion on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements caused by error or fraud in amounts that would be material in relation to the financial schedules being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses.

### Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Commercial Mobile Radio Service Emergency Telephone Fund's financial schedules are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial schedule amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of the State's management and the Legislature and is not intended to be and should not be used by anyone other than these specified parties. However, this report is a matter of public record and its distribution is not limited.

AUDITOR GENERAL

April 18, 2007

# GLOSSARY

## Glossary of Acronyms and Terms

CMRS supplier	A person or private, governmental, or other legal entity providing a telephone service or a CMRS to a service user in the State.
commercial mobile radio service (CMRS)	Certain communications services and equipment regulated by the Federal Communications Commission. CMRS includes wireless two-way communications devices, including cellular telephones, radio telecommunications lines used in providing cellular telephone services, and network radio access lines.
financial audit	An audit that is designed to provide reasonable assurance about whether the financial schedules and/or financial statements of an audited entity are fairly presented in conformity with the disclosed basis of accounting.
internal control	A process, effected by management, designed to provide reasonable assurance regarding the reliability of financial reporting, effectiveness and efficiency of operations, and compliance with applicable laws and regulations.
material misstatement	A misstatement in the financial schedules and/or financial statements that causes the schedules and/or statements to not present fairly the financial position or the changes in financial position or cash flows in conformity with the disclosed basis of accounting.
material weakness	A reportable condition related to the design or operation of internal control that does not reduce to a relatively low level the risk that misstatements caused by error or fraud in amounts that would be material in relation to the financial schedules and/or financial statements may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions.

public safety answering point	A communications facility (call center) operated on a 24-hour basis assigned the responsibility by a public agency or county to receive 911 calls and to dispatch public safety response services.
reportable condition	A matter coming to the auditor's attention relating to a significant deficiency in the design or operation of internal control that, in the auditor's judgment, could adversely affect the entity's ability to initiate, record, process, and report financial data consistent with the assertions of management in the financial schedules and/or financial statements.
<i>SOMCAFR</i>	<i>State of Michigan Comprehensive Annual Financial Report.</i>
unqualified opinion	<p>An auditor's opinion in which the auditor states that:</p> <ul style="list-style-type: none"> <li data-bbox="565 924 1443 1102">a. The financial schedules and/or financial statements presenting the basic financial information of the audited agency are fairly presented in conformity with the disclosed basis of accounting; or</li> <li data-bbox="565 1155 1443 1642">b. The financial schedules and/or financial statements presenting supplemental financial information are fairly stated in relation to the basic financial schedules and/or financial statements. In issuing an "in relation to" opinion, the auditor has applied auditing procedures to the supplemental financial schedules to the extent necessary to form an opinion on the basic financial schedules and/or financial statements, but did not apply auditing procedures to the extent that would be necessary to express an opinion on the supplemental financial schedules taken by themselves.</li> </ul>

wireless phase I

Required by the Federal Communications Commission Report and Order 96-264 pursuant to Notice of Proposed Rulemaking 94-102; the delivery of a wireless 911 call with callback number and identification of the cell-sector from which the call originated.

wireless phase II

Required by the Federal Communications Commission Report and Order 96-264 pursuant to Notice of Proposed Rulemaking 94-102; the delivery of a wireless 911 call with phase I requirements plus location of the caller within 100 meters 67% of the time for network-based caller location systems and within 50 meters 67% of the time for handset-based location systems.
