The auditor general shall conduct post audits of financial transactions and accounts of the state and of all branches, departments, offices, boards, commissions, agencies, authorities and institutions of the state established by this constitution or by law, and performance post audits thereof.

- Article IV, Section 53 of the Michigan Constitution
Legislators and Interested Parties:

I am pleased to provide our fiscal year 2016 annual report. It details aspects of our office operations and lists the audit reports issued in the past fiscal year. Article IV, Section 53 of the Michigan Constitution establishes the Office of the Auditor General and requires this annual report.

During the fiscal year, we issued independent auditor’s opinions on 26 sets of financial statements and schedules. Our collaboration with the State Budget Office resulted in the preparation and audit of the State of Michigan Comprehensive Annual Financial Report within 92 days of fiscal year-end, again setting the national benchmark for timely state government reporting. Our other most extensive project, the Statewide Single Audit, assessed State agency compliance with regulations tied to $23.1 billion in federal funds.

The 40 performance audits that we completed received pointed attention for our work involving the Grand Rapids Home for Veterans, Claimant Services within the Unemployment Insurance Agency, the Child Care Fund, Adult Protective Services, and the Flint drinking water crisis, among many others.

Our top 2017 priorities include:

1. **Mechanisms for stakeholders to report suspected fraud, waste, and abuse of tax dollars to the OAG**
   Recently, we decided to join 34 other state auditor offices by providing State employees and citizens with an avenue for reporting potentially fraudulent activities to our Office. We are identifying the leading practices across the country for efficient and confidential mechanisms to receive and investigate allegations and report the results. We will work closely with the Department of Attorney General or other entities to refer for prosecution any individuals who may have committed a crime.

2. **Staff development**
   We implemented a new mentoring process for our entry-level staff to help ensure their successful transition from academia to the workforce. We are creating a three-year curriculum to ensure that they have consistent training, diverse audit assignments, constructive feedback, and professional growth opportunities. For our management team, we are prioritizing leadership training and preparing for retirements and other attrition.

Throughout the year, we will continue to provide the Legislature and Executive Office with our six-month audit plans and monthly audit summaries. Citizens may follow our work by visiting the OAG Web site.

We are fortunate to have an incredible team of audit professionals and support staff within the OAG to deliver oversight in an independent, objective, and transparent manner. We welcome the opportunity to provide this information to assist in your decision making. I look forward to working with you this year.

Sincerely,

Doug Ringler
Auditor General

**Mission**

The OAG's mission is to improve the accountability for public funds and to improve State government operations for the benefit of Michigan’s citizens. The OAG best accomplishes its mission by adhering to the professional standards of the auditing profession and by promoting an atmosphere of independence, objectivity, and transparency among OAG staff and the people we serve.

**Responsibility**

The Michigan Constitution established the OAG within the legislative branch of State government and set forth its responsibility to conduct post financial and performance audits of State government operations (Article IV, Section 53). Audit activities are performed in accordance with generally accepted auditing standards of the American Institute of Certified Public Accountants and Government Auditing Standards issued by the Comptroller General of the United States.

**Organization**

Doug A. Ringler, the Auditor General, is the principal executive and has ultimate responsibility for OAG policies, practices, and reports. The Auditor General is appointed by the Legislature for an eight-year term. His term began in June 2014.

The Auditor General appointed Laura J. Hirst as Deputy Auditor General. Ms. Hirst is the Auditor General’s principal aide in carrying out the OAG’s responsibilities and in leading the Bureau of Audit Operations.

The OAG has five primary operational areas:

- **The Bureau of Audit Operations** is responsible for conducting the audits of the State of Michigan’s executive, legislative, and judicial branches of government, including its universities and community colleges. The Bureau also considers legislative requests. In addition, the Bureau participates in joint National State Auditors Association audits with other states’ audit agencies.

The Bureau is organized into five audit divisions based on type of audits performed and activities audited:

- The Statewide Single Audit.
- Environmental and Information Technology performance audits.
- Health, Safety, and Regulatory performance audits.
- Service, Assistance, and Education performance audits.

- **The Office of Professional Practice** is responsible for performing quality assurance reviews of audit reports and working papers, editing audit reports, and conducting accounting and auditing research.

- **The Office of Information Technology** is responsible for all OAG networks and information systems. The Office provides specialized data extraction and analysis, computer hardware and software support, and training to all OAG staff.

- **The Office of Administration** is responsible for human resource management; accounting and budgeting; audit report production; and officewide printing, purchasing, and clerical support.

- **The Chief Investigator** is responsible for investigative audits related to allegations of fraud, waste, or abuse of taxpayer dollars. The Chief Investigator will also work with prosecutorial agencies and provide counsel to OAG staff on fraud-related issues.
The OAG had 160 employees as of September 30, 2016. The OAG’s commitment to professionalism and leadership in State governmental auditing is evidenced by the professional certifications achieved by its staff. Including the Auditor General, the office has:

- 61 certified public accountants
- 15 certified information systems auditors
- 3 certified internal auditors
- 2 certified fraud examiners
- 2 certified government financial managers
- 22 employees with master’s degrees

Many employees also actively participate as officers, board members, and committee members of national, State, and local accounting and auditing organizations.

**Quality Control**

**Professional Standards**

The OAG performs audits in accordance with the following professional standards:

- Generally accepted auditing standards of the American Institute of Certified Public Accountants.
- *Government Auditing Standards* issued by the Comptroller General of the United States.
- The federal Single Audit Act Amendments of 1996 and implementing regulations.

**External Quality Control Review**

*Government Auditing Standards* requires a triennial peer review of OAG operations. The peer review is performed by a six-person National State Auditors Association external quality control review team. In the most recent review performed in October 2015, the peer review team provided the OAG with its tenth consecutive unmodified (“clean”) opinion on its system of quality control. This is the highest level of opinion.

**Independence**

Auditing standards require auditor independence in fact and in appearance. The standards also define impairments to independence. The most recent external peer review of OAG operations noted no impairments affecting the OAG’s independence in providing auditing and other attestation services.
Financial Audits
Financial audits are designed to provide reasonable assurance about whether the financial statements and/or financial schedules of an audited entity are presented fairly, in all material respects, in conformity with generally accepted accounting principles.

- *State of Michigan Comprehensive Annual Financial Report (SOMCAFR) Audit*

  The SOMCAFR is an annual report prepared by the Office of Financial Management, within the State Budget Office. The SOMCAFR includes the State's government-wide financial statements, fund financial statements for the State's major funds, combining and individual fund financial statements for nonmajor funds, and statistical data. The State's reporting entity includes the primary government (all funds, departments and agencies, bureaus, boards, and commissions) and its component units.

  The OAG audits and issues an independent auditor’s opinion on the financial statements, which is included within the published SOMCAFR.

- *Statewide Single Audit*

  This annual audit is required by the federal Single Audit Act and by State statute. The federal Single Audit Act required state and local governments receiving $500,000 or more of federal financial assistance in any fiscal year to have a comprehensive financial audit, including an assessment of the entity's compliance with federal program requirements.

  The OAG annually audits those State programs that reach major federal program status. The State's single audit report, including the Auditor General's report on compliance, is required to be submitted to the federal government by June 30 each year for the previous fiscal year ended September 30.

- *Other Financial Audits*

  For fiscal year 2016, we conducted 24 other required financial audits and contracted for the completion of 15 financial audits. State statute requires annual financial audits of certain entities.

Performance Audits
Performance audits compare criteria applicable to the audited entity with the activities that occurred. Findings and/or conclusions provide objective and independent analyses to program
management and those charged with governance and oversight to facilitate decision making and improve public accountability. We conduct performance audits based on the potential for improving the effectiveness and efficiency of State government operations.

Audit Finding Follow-Ups
The OAG may follow up findings reported in a previously issued performance audit report to assess the entities’ compliance with prior audit recommendations. Follow-ups typically focus on material conditions, which are considered more severe than reportable conditions. We may issue recommendations if corrective action was not effective at fostering improvements.

Preliminary Survey Summaries
A preliminary survey summary is a publicly released document in a report-like format that addresses only the results of a preliminary survey. A preliminary survey, performed at the beginning of a performance audit, is designed to obtain an understanding of the core activities within an entity or a program. These procedures are limited and are not considered a completed performance audit.

If the results of a preliminary survey do not identify significant potential program improvements and/or risks of deficiencies that could impair management’s ability to operate a program effectively or efficiently, we terminate the performance audit and move our resources to a more value-driven project. For fiscal year 2016, we issued 4 preliminary survey summaries.

Attestation Engagements
Attestation engagements involve examining, reviewing, or performing agreed-upon procedures on a subject matter or an assertion about a subject matter and reporting on the results. An attestation engagement can cover a broad range of financial or nonfinancial matters or subjects.

### Report Distribution, Response, and Value

#### Report Distribution
We provide electronic access to all of our released reports. They are most often addressed to the chief executive officer of the audited entity and/or to the chair of its governing board or commission. On the day prior to a report’s official release, we notify the audited entity, the Executive Office, and all legislators.

On the official release date, our office posts the report publicly to the OAG Web site and e-mails a report link to all legislators; the House and Senate Fiscal Agencies; other State offices; and all others who have requested a copy of the report, including any media. Our office does not issue news releases, but we do respond to media or public inquiries regarding released reports.

#### Auditee Response
Audited agencies are required to develop a plan to comply with OAG audit recommendations and to submit the plan to the Office of Internal Audit Services, State Budget Office, within 60 days after release of the OAG audit report. This requirement is found in Section 18.1462 of the Michigan Compiled Laws and in the State of Michigan Financial Management Guide (Part VII, Chapter 4, Section 100).

The Office of Internal Audit Services either accepts the plan as final or contacts the agency to take additional steps to finalize it. The OAG Web site includes the agency’s plan to comply following each OAG audit report.

#### Audit Value
OAG reports provide independent, objective, and transparent information that legislative members can use in making informed decisions regarding program scope, structure, and funding. Investors and creditors can rely on OAG financial reports to assess the State’s financial condition. In addition, our work offers citizens information about the oversight and accountability of taxes, fees, and other revenues paid to the State and whether those dollars are spent in accordance with statutes and guidelines.
Communication Types

Reports
OAG audit reports are the formal, written, and primary means of communicating audit results. The reports and other communications foster positive and productive working relationships with the Legislature, audited agencies, citizens, and other stakeholders.

Monthly Summaries
The Auditor General e-mails a monthly summary to all legislators and the Governor which identifies projects that the OAG initiated during the prior month; any audits terminated; audit objectives established for ongoing projects; projects nearing completion, including estimated release dates; and audits released.

Legislative Hearings and Meetings
The OAG welcomes the opportunity to brief committees and meet personally with legislators to provide audit report testimony, discuss specific issues identified within audit reports, respond to requests for our audit services, or provide information related to government operations to assist in their decision making.

State Relations Officer
The OAG State Relations Officer's primary responsibility is to build effective relationships and to facilitate communications with the Legislature, legislative fiscal agencies, the Executive Office, audited agencies, and the media. These communications include addressing questions about OAG operations and reports, facilitating requests for audit work, and coordinating report presentations to the Legislature upon request.

On-Line Information
OAG reports are released via e-mail, twitter, and LinkedIn. Our recently updated Web site, www.audgen.michigan.gov, provides extensive information, including:

- Completed projects by fiscal year
- Recently released reports
- Reports scheduled for release
- Work in progress
- Monthly summaries to the Legislature and the Governor
- Auditing FAQ
- Types of audits performed
- Professional standards
- OAG organizational chart
- Office location
- Contact information
Completed Audit, Letter, and Follow-Up Reports

Agriculture and Rural Development

Legislative Request:
- Michigan Agriculture Environmental Assurance Program - Letter to Senator Green

Contracted Audit:
- Farm Produce Insurance Authority Financial Report for the Fiscal Year Ended December 31, 2015

Corrections

Performance Audits:
- Bellamy Creek Correctional Facility, 471-0208-15
- Oaks Correctional Facility, 471-0222-15
- Prisoner Transportation, 471-0390-15
- Substance Abuse Services, 471-0360-15
- Trust Accounting and Payroll System, 471-0526-15
