Office of the Auditor General Performance Audit Report

COVID-19 Expenditures

State of Michigan

June 2021

State of Michigan Auditor General Doug A. Ringler, CPA, CIA

The auditor general shall conduct post audits of financial transactions and accounts of the state and of all branches, departments, offices, boards, commissions, agencies, authorities and institutions of the state established by this constitution or by law, and performance post audits thereof.

The auditor general may make investigations pertinent to the conduct of audits.

Article IV, Section 53 of the Michigan Constitution

Performance Audit COVID–19 Expenditures State of Michigan

Report Number: 000-2000-20D

Released: June 2021

On March 10, 2020, Governor Gretchen Whitmer declared a state of emergency when the Michigan Department of Health and Human Services identified the first two presumptive positive cases of the novel coronavirus (COVID-19) respiratory illness. The Legislature enacted Public Acts 67, 123, 144, 146, 150, and 166 of 2020, appropriating supplemental funding for COVID-19. In addition, Section 704 (3), Public Act 53 of 2019 allows the Michigan Department of State Police to receive and expend money from local, State, federal, or private sources for the purpose of supporting emergency preparedness, response, recovery, and mitigation activity. As of November 30, 2020, supplemental appropriations for COVID-19 totaled \$6.0 billion. Public Act 67 of 2020 requires the Auditor General to audit the use of the funds appropriated for the COVID-19 emergency and report monthly until the funds are expended. Our report includes COVID-19 expenditures appropriated by all Public Acts. This is our fourth report.

The Honorable Curtis Hertel, Jr., Min. Vice Chair Senate Appropriations Committee Connie B. Binsfeld Building Lansing, Michigan

Ms. Margaret O'Brien, Secretary Michigan Senate State Capitol Building Lansing, Michigan Mr. Brom Stibitz Director, Department of Technology, Management, and Budget Chief Information Officer, State of Michigan Elliott-Larsen Building Lansing, Michigan

The Honorable Thomas Albert, Chair House Appropriations Committee State Capitol Building Lansing, Michigan

The Honorable Joe Tate, Min. Vice Chair House Appropriations Committee Anderson House Office Building Lansing, Michigan

Mr. Gary Randall, Clerk Michigan House of Representatives State Capitol Building Lansing, Michigan

Dear Governor Whitmer, Mr. Stibitz, Senators Stamas and Hertel, Representatives Albert and Tate, Ms. O'Brien, and Mr. Randall:

This is our performance audit report on the COVID-19 Expenditures, State of Michigan.

Section 204, Public Act 67 of 2020, effective March 30, 2020, requires the Office of the Auditor General to audit the use of funds appropriated for coronavirus public health emergency - health care capacity, coronavirus public health emergency, and coronavirus response fund and report to the chairs of the Senate and House Appropriations Committees at a minimum of every month on the appropriateness of the preceding month's expenditures until the funds are expended. In order to provide a more complete picture of the total spending on COVID-19, our audit scope includes all COVID-19 coded expenditures as of November 30, 2020. Because of the ongoing nature of the audit, not all reported and sampled expenditures were audited by the end of our fieldwork. Expenditures not subject to our review for this report will be considered for our next audit of the COVID-19 expenditures, unless otherwise noted.

The Act also requires the OAG to report the details of our services related to our review of the COVID-19 expenditures; details of findings of fraud, waste, and abuse; and recommendations for corrective actions by any governmental entity. We have included these details as of November 30, 2020 and will continue to provide this information through our ongoing performance audit reports until the COVID-19 funds are expended.

This is our fourth report on the expenditures of these funds.

We appreciate the courtesy and cooperation extended to us during this audit.

Sincerely.

Jove Kingler

Doug Ringler Auditor General

AUDIT OBJECTIVES, CONCLUSIONS, FINDINGS, AND OBSERVATIONS

APPROPRIATENESS OF COVID-19 EXPENDITURES THROUGH NOVEMBER 30, 2020

BACKGROUND	Public Act 67 of 2020 requires the Auditor General to conduct an audit of the use of funds appropriated for the Statewide coronavirus emergency and to continue to audit and report monthly on the use of these funds.					
	In addition, Public Acts 67, 123, 144, 146, 150, and 166 of 2020 and Public Act 53 of 2019 provide for funding sources from General Fund, federal, Federal Emergency Management Agency (FEMA), and private donations related to COVID-19. State agencies were also directed to utilize operating budgets to the extent possible.					
	Because of the ongoing nature of the audit, not all reported expenditures were audited by the end of our fieldwork. Reported expenditures not subject to audit during the current month will be considered for audit during our next audit of the COVID-19 expenditures, unless otherwise noted.					
AUDIT OBJECTIVE	To determine the appropriateness of State agencies' novel coronavirus* (COVID-19) expenditures through November 30, 2020.					
CONCLUSION	Appropriate.					
FACTORS IMPACTING CONCLUSION	 Reviewed supporting documentation for 906 (98%) of 922 transactions totaling \$796.6 million and determined that the COVID-19 expenditures were appropriate (see Exhibit #1). 					
	 Reviewed 16 transactions totaling \$23.4 million and determined the documentation provided did not support \$10.4 million of the expenditures (see Exhibits #1 and #2). 					
	 Unable to assess the appropriateness at the time of this report for 3 transactions totaling \$12.3 million because sufficient documentation has not been provided (see Exhibits #1 and #2). 					
	 Observation* related to a lack of disaster receipt and distribution preparedness. 					

^{*} See glossary at end of report for definition.

OBSERVATION #1

Michigan lacked disaster receipt and distribution preparedness. The State did not initially have a centralized facility within Michigan for the receipt and distribution of COVID-19 related goods, resulting in use taxes of \$5.6 million paid to Ohio.

At the onset of the COVID-19 emergency, State purchases were shipped to various Michigan locations (including Lansing, Jackson, and Detroit) that were not prepared to handle such large quantities of COVID-19 related goods. As a result, the State contracted with a logistics vendor, located in Dayton, Ohio, to receive and distribute a significant amount of these goods. The State purchased and received \$75.2 million of COVID-19 related goods at the Ohio facility primarily between March 18, 2020 and April 27, 2020.

Section 205.54h of the *Michigan Compiled Laws* exempts the State and its departments from sales tax on its purchases. Accordingly, the State has claimed this exemption when purchasing COVID-19 related goods from vendors, including those goods delivered to the Ohio facility. However, section 5741.02(A)(1) of the *Ohio Revised Code* requires the collection of Ohio sales tax on the storage, use, or other consumption of goods in Ohio. Also, section 5741.02(B) requires the payment of use tax to Ohio if the proper amount of Ohio sales tax has not been paid to the vendor at the time of purchase. Michigan is not exempt from tax obligations under the *Ohio Revised Code* due to the lack of a reciprocal exemption for Ohio from Michigan tax.

The State became aware of its Ohio tax obligation when a vendor noted that Ohio sales tax needed to be charged on the State's purchase because the goods were being delivered to the Ohio facility. After consultation with the Michigan Department of Treasury, the Department of Technology, Management, and Budget issued a voluntary use tax payment to Ohio for \$5.6 million in November 2020.

In April 2020, the logistics vendor established a receipt and distribution center near Detroit, at the State's request, to avoid future Ohio tax obligations. Also, in May 2020, the State began leasing the COVID-19 Response Warehouse in Lansing to consolidate receipt and distribution of most of its COVID-19 related goods.

We recognize the unprecedented circumstances that resulted in the use of the Ohio facility to receive and distribute COVID-19 purchases. Michigan, along with the other states, were confronting the need to provide these goods to citizens. We are reporting this matter because auditing standards require it and to be transparent to our stakeholders. Further, we are disclosing this as an Observation, rather than a Finding with a Recommendation, because the period of time in which the State utilized the Ohio facility was relatively limited and Michigan appears to have remediated the situation. Our performance audit of COVID-19 Expenditures, issued in September 2020 and located at <u>audgen.michigan.gov/wp-</u> <u>content/uploads/2020/09/r000200020B-3322.pdf</u>, identified additional concerns in Observation #1 associated with the use of the Ohio facility.

STATE AGENCIES' COVID-19 EXPENDITURES THROUGH NOVEMBER 30, 2020

BACKGROUND	The State Budget Office (SBO) prepares monthly reports on COVID-19 expenditures reported by State agencies. Due to timing differences, our report on the COVID-19 expenditures may not reflect the same amounts as reported in SBO's published reports.
AUDIT OBJECTIVE	To report State agencies' COVID-19 expenditures.
CONCLUSION	Information provided.
FACTORS IMPACTING CONCLUSION	• We reported the State agencies' COVID-19 expenditures through November 30, 2020 in the supplemental information section.

Summary of Expenditures Sampled for Testing From March 10, 2020 Through November 30, 2020

Coronavirus relief fund - operational share	COVID Local Support	 79,946,429
Total COVID-19 Expenditures		\$ 3,522,897,065

¹Unappropriated - no control is a default title in SIGMA that signifies that there are no budgetary controls. This designation could either indicate that expenditures were incurred prior to specific COVID-19 coding being available and will be adjusted accordingly in future reports or the expenditures are related to funds that do not have budgetary controls, such as proprietary funds and component unit funds.

²MSP Receive and Expend Expenditure Credits is used to move the originating expenditures incurred by State Departments for Health Care Response back to the Michigan State Police, which was the original appropriated funding source in Public Act 53 of 2019.

Source: The OAG prepared this exhibit based on information obtained from SIGMA and SBO.

Total	\$ 1,659,618,660	

¹Includes \$5,271,392 paid in error.

²Represents MDOC employee payroll for clinical staff.

³Payments were recalled and funds returned to State of Michigan.

⁴Payment was recalled, not all funds recovered. See Exhibit #2.

Note: This exhibit identifies vendors who received initial payments totaling \$2.5 million or more generally based on the use of a unique vendor ID in SIGMA. Local units and schools totaling \$2.5 million or more individually were consolidated for reporting purposes. The OAG is also working to identify additional vendors who were not identified in SIGMA with a unique vendor ID code. The OAG added the type of activity as reported by the department or supporting documentation.

¹Advances represent funds transferred to subrecipients by the State that have not yet been expended.
 ²Includes accrued payables and funds returned to the State by subrecipients as of September 30, 2020.
 ³Funds through CVSF are provided on an emergency basis. The appropriation amount represents total emergency payments made related to COVID-19.

Note: Expenditure and advance amounts are unknown as of November 30, 2020 due to reports from subrecipients not being available and/or State departments not yet recording entries in SIGMA. Program advance amounts were recorded by State departments as of September 30, 2020 to align with the State's fiscal year-end.

Source: The OAG prepared this exhibit based on information obtained from SIGMA and State departments.

On March 10, 2020, Governor Gretchen Whitmer declared a state of emergency across the State of Michigan when the Michigan Department of Health and Human Services identified the first two presumptive positive cases of the COVID-19 respiratory illness. The Legislature enacted Public Acts 66 (reduced to \$0 in part 1 appropriations of Public Act 144 of 2020), 67, 123, 144, 146, 150, and 166 of 2020, appropriating supplemental funding for COVID-19. Also, Section 704 (3), Public Act 53 of 2019 allows the Michigan Department of State Police to receive and expend money from local, State, federal, or private sources for the purpose of supporting emergency preparedness, response, recovery, and mitigation activity.

Federal acts related to the COVID-19 emergency through November 30, 2020:

- Coronavirus Preparedness and Response Supplemental Appropriations Act 2020, effective March 6, 2020.
- Families First Coronavirus Response Act (FFCRA), effective March 18, 2020.
- Coronavirus Aid, Relief, and Economic Security Act, or the CARES Act, effective March 27, 2020.
 - Michigan was allocated a total of \$3.9 billion from the Coronavirus Relief Fund, \$800 million of which went directly to the local governmental units of the City of Detroit and Wayne, Macomb, Kent, and Oakland counties.
- Paycheck Protection Program and Health Care Enhancement Act, effective April 24, 2020.

AUDIT SCOPE, METHODOLOGY, AND OTHER INFORMATION

AUDIT SCOPE	To determine if the expenditures charged to the COVID-19 appropriations were appropriate and to report those expenditures. Our audit was limited to expenditures reported by November 30, 2020. We conducted this performance audit* in accordance with generally accepted government auditing standards. Those standards require that we plan and perform the audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides a reasonable basis for our findings and conclusions based on our audit objectives. Because of the ongoing nature of the audit, not all reported and
	sampled expenditures were audited by the end of our fieldwork. We determined that 906 sample expenditures were appropriate and serve as the basis for our conclusion to the first audit objective. In addition, there are 3 sample items we are unable to assess at this time and 19 sample items still under review (see Exhibits #1 and #2). Expenditures not subject to our review for this report will be considered for our next audit of the COVID-19 expenditures, unless otherwise noted.
	As part of the audit, we considered the five components of internal control (control environment, risk assessment, control activities, information and communication, and monitoring activities) relative to the audit objectives and determined that all components were significant.
PERIOD	Our audit procedures, which included audit planning, audit fieldwork, report preparation, and quality assurance, generally covered March 10, 2020 through November 30, 2020.
METHODOLOGY	Pursuant to Public Act 67 of 2020, our audit objectives reflect the monthly reporting requirements to audit the appropriateness and report the Statewide COVID-19 expenditures. Our preliminary survey is ongoing as we gain an understanding of the Statewide policies, procedures, and processes put into place as a result of COVID-19. Based on our ongoing audit fieldwork, our audit objectives, scope, and methodology may change.
	During this audit, we:

 Visited the COVID-19 Response Warehouse to gain an understanding of the receiving process and volume of COVID-19 goods.

^{*} See glossary at end of report for definition.

	 Reviewed SBO guidance to State agencies on COVID-19 expenditures.
	 Communicated with department staff to gain an understanding of the controls established over expenditures and reporting.
	 Reviewed federal legislation impacting State funding for COVID-19 expenditures.
	 Reviewed SBO reports to gain an understanding of expenditures reported by State departments.
	 Reviewed and reconciled the federal budget authorizations uploaded in SIGMA and reported to the Legislature through July 7, 2020.
OBJECTIVE #1	To determine the appropriateness of State agencies' COVID-19 expenditures through November 30, 2020.
	To accomplish this objective, we:
	 Communicated with State departments to obtain an understanding of their reported expenditures, related purchasing processes, payment mechanisms, and monitoring activities.
	 Reviewed source documentation supporting selected expenditures. Our samples were judgmentally and randomly selected. Therefore, we could not project the results to the overall populations.
OBJECTIVE #2	To report State agencies' COVID-19 expenditures.
	To accomplish this objective, we:
	 Validated the account coding used by State agencies for COVID-19 expenditures.
	 Extracted the COVID-19 expenditures charged to the appropriations from SIGMA.
CONCLUSIONS	We base our conclusions on our audit efforts and any resulting material conditions*, reportable conditions*, or observations.
AGENCY RESPONSES	Not applicable.

* See glossary at end of report for definition.

Following is the status of the reported findings from our January 2021 performance audit of the COVID-19 Expenditures, State of Michigan (000-2000-20C):

Prior Audit Finding Number	Topic Area	Current Status	Current Finding Number
1	Circumvention of procurement card policies and procedures.	Complied	Not applicable
2	Controls over payments to vendors.	Not complied*	Not applicable

*DTMB's corrective action was in process at issuance of this report.

SUPPLEMENTAL INFORMATION

Our audit report includes supplemental information presented as Exhibits #1 through #11.

Information (such as amounts appropriated, funding allocations, total expenditures, or expenditures subject to review) may change between reports. In most instances, this is a result of agency coding changes, expenditure transfers, additonal testing performed, or errors identified during our review. Exhibits are adjusted as we become aware of these changes and perform further audit procedures.

GLOSSARY OF ABBREVIATIONS AND TERMS

DTMB	Department of Technology, Management, and Budget.
FEMA	Federal Emergency Management Agency.
internal control	The plan, policies, methods, and procedures adopted by management to meet its mission, goals, and objectives. Internal control includes the processes for planning, organizing, directing, and controlling program operations. It also includes the systems for measuring, reporting, and monitoring program performance. Internal control serves as a defense in safeguarding assets and in preventing and detecting errors; fraud; violations of laws, regulations, and provisions of contracts and grant agreements; or abuse.
material condition	A matter that, in the auditor's judgment, is more severe than a reportable condition and could impair the ability of management to operate a program in an effective and efficient manner and/or could adversely affect the judgment of an interested person concerning the effectiveness and efficiency of the program. Our assessment of materiality is in relation to the respective audit objective.
novel coronavirus (COVID-19)	The infectious disease caused by the most recently discovered coronavirus. This new virus and disease were unknown before the outbreak began in Wuhan, China, in December 2019. COVID-19 is now a pandemic affecting many countries globally.
observation	A commentary that highlights certain details or events that may be of interest to users of the report. An observation may not include all of the attributes (condition, effect, criteria, cause, and recommendation) that are presented in an audit finding.
performance audit	An audit that provides findings or conclusions based on an evaluation of sufficient, appropriate evidence against criteria. Performance audits provide objective analysis to assist management and those charged with governance and oversight in using the information to improve program performance and operations, reduce costs, facilitate decision-making by parties with responsibility to oversee or initiate corrective action, and contribute to public accountability.
personal protective equipment (PPE)	Equipment worn to minimize exposure to hazards that cause serious workplace injuries or illnesses. Types of PPE can include masks/respirators, face shields, goggles, gowns/aprons, and gloves.

reportable condition	A matter that, in the auditor's judgment, is less severe than a material condition and falls within any of the following categories: a deficiency in internal control; noncompliance with provisions of laws, regulations, contracts, or grant agreements; opportunities to improve programs and operations; or fraud.
SBO	State Budget Office.
Statewide Integrated Governmental Management Applications (SIGMA)	The State's enterprise resource planning business process and software implementation that support budgeting, accounting, purchasing, human resource management, and other financial management activities.
