Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards	26-28

Independent Auditor's Report

To the Michigan Legislature and Mr. Doug Ringler, CPA, CIA, Auditor General Office of the Auditor General

Report on the Combined Financial Statement

We have audited the accompanying combined statement of sources and disposition of General Fund authorizations of the Michigan Legislature for the years ended September 30, 2020 and 2019 and the related notes (the "financial statement").

Management's Responsibility for the Combined Financial Statement

Management is responsible for the preparation and fair presentation of the financial statement in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of a financial statement that is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the financial statement based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statement is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statement. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statement, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statement in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statement.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the combined financial statement referred to above presents fairly, in all material respects, the combined statement of sources and disposition of General Fund authorizations of the Michigan Legislature for the years ended September 30, 2020 and 2019, in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

We draw attention to Note 1 to the financial statement, which describes that the accompanying financial statement of the Michigan Legislature was prepared for the purpose of presenting the combined statement of sources and disposition of the agencies within the State of Michigan's General Fund that comprise the Michigan Legislature, excluding the Legislative Retirement System. This financial statement is intended to present only the sources and disposition of General Fund authorizations for the Michigan Legislature and does not present, nor is it intended to present, the entire activity of the State of Michigan or its General Fund. Our opinion is not modified with respect to this matter.

To the Michigan Legislature and Mr. Doug Ringler, CPA, CIA, Auditor General Office of the Auditor General

Other Matter

Other Information

Our audits were conducted for the purpose of forming an opinion on the financial statement that collectively comprises the Michigan Legislature's combined statement of sources and disposition of General Fund authorizations. The accompanying supplemental schedules, as listed in the table of contents, are presented for the purpose of additional analysis and are not a required part of the combined statement of sources and disposition of General Fund authorizations of the Michigan Legislature.

The accompanying supplemental schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statement. Such information has been subjected to the auditing procedures applied in the audit of the financial statement and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statement itself, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the accompanying supplemental schedules are fairly stated in all material respects in relation to the financial statement as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated March 5, 2021 on our consideration of the Michigan Legislature's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting are reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Michigan Legislature's internal control over financial reporting and compliance.

Alante i Moran, PLLC

Notes to Statements of Sources and Dispositions

Of General Fund Authorizations

September 30, 2020 and 2019

Note 1 - Summary of Significant Accounting Policies

The Michigan Legislature follows accounting policies generally accepted in the United States of America (GAAP) as applicable to governmental units. Accounting and financial reporting pronouncements are promulgated by the Governmental Accounting Standards Board (GASB).

Reporting Entity - The accompanying statements of sources and disposition of General Fund authorizations have been prepared for the purpose of presenting the combined statement of sources and disposition of the agencies within the State of Michigan's General Fund that comprise the Michigan Legislature. These financial statements are intended to present only the sources and disposition of General Fund authorizations for the Michigan Legislature and do not present, nor are they intended to present, the entire activity of the State of Michigan or its General Fund. For the purpose of these statements, the Michigan Legislature includes the following agencies: the House of Representatives, the House Fiscal Agency, the Legislative Council, the State Capitol Historic Site, the Senate, the Senate Fiscal Agency, and the Office of the Auditor General. The statements do not include the activity of the Legislative Retirement System.

The accompanying statements of sources and disposition of General Fund authorizations report the total funds (general and work/capital project appropriations) available to the Michigan Legislature and the related disposition of such funds for the years ended September 30, 2020 and 2019.

Total funds available as reflected in the accompanying statements of sources and disposition of General Fund authorizations consist of legislative appropriations to these specific agencies, balances carried forward from prior year, adjustments to appropriations, and restricted and unrestricted miscellaneous revenue. The legislative appropriations include funding from other funds within the State. Each year, the Senate and House of Representatives appropriate funds for the various agencies, bureaus, commissions, departments, boards, and institutions of state government. This General Government Appropriations Act includes the general appropriations for the Michigan Legislature. Total expenditures, as reflected in the accompanying financial statements, represent the purchase of goods and services, including payroll expenses of the Michigan Legislature, for which an obligation for payment was incurred by the Michigan Legislature during the period presented. The financial transactions of the Michigan Legislature are accounted for in the State of Michigan's General Fund and are reported in the State of Michigan's comprehensive annual financial report (SOMCAFR).

The notes accompanying these financial statements include only those disclosures that relate directly to the sources and dispositions of General Fund authorizations related to the Michigan Legislature. The SOMCAFR provides more extensive disclosures regarding the State's significant accounting policies and budgetary control.

The SOMCAFR also provides more extensive disclosures regarding the State's litigation, which may impact the Michigan Legislature.

Measurement Focus, Basis of Accounting, and Presentation - The financial statements presented herein have been prepared on the modified accrual basis of accounting. This basis of accounting is intended to better demonstrate accountability for how the Michigan Legislature has spent its resources.

Expenditures are reported when the goods are received or the services are rendered. Capital outlays are reported as expenditures because they reduce the ability to spend resources in the future. In addition, claims and judgments are recorded only when payment is due.

Revenue and appropriations are recognized when collected.

Notes to Statements of Sources and Dispositions

Of General Fund Authorizations

September 30, 2020 and 2019

Note 1 - Summary of Significant Accounting Policies (Continued)

Adjustments to Appropriations - Adjustments to appropriations represent any adjustments to the original appropriation bill and transfers among agencies.

Intrafund Reimbursement - Intrafund reimbursements represent monies that are transferred to agencies within the Michigan Legislature from other State of Michigan agencies external to the Michigan Legislature, but included in the General Fund of the State of Michigan. These transactions are presented as such to avoid overstating expenditures and revenue on the SOMCAFR.

Unexpended Authorizations

Encumbrances - Encumbrances represent written commitments entered into with vendors and suppliers by September 15 that are carried forward to increase the spending authorizations of the subsequent year.

Work Project - Work project represents a one-time recurring project undertaken for the purpose of accomplishing a specific objective contained in a budget appropriation designated as a "work project." The Senate and House Appropriation Committees must be notified of appropriations designated as work projects. The appropriation committees have 30 days to disapprove such projects. Unused spending authority in these accounts may carry forward if the requirements of Act 431, Section 451 of 1984, as amended, are met.

Capital Outlay - Capital outlay represents a project or facility financed either in whole or in part with state funds, including lease purchase agreements, to demolish, construct, renovate, or equip a building or facility for which total project costs exceed \$1,000,000. Unused spending authority in these accounts may carry forward if the requirements of Act 431, Section 451 of 1984, as amended, are met.

Restricted Revenue - Restricted revenue is revenue earned for which the use is restricted to a specific purpose and may be carried forward to future years until expended for the specific purpose.

Note 2 - Accumulated Employee Benefits

The accumulated employee benefits due to state legislative employees are estimated at \$8,782,349 for September 30, 2020 and \$4,160,032 for September 30, 2019. These amounts represent an estimated liability to be paid in future periods in accordance with the specific policies of each agency. The estimated liability includes the Michigan House of Representatives, Michigan Senate, Legislative Council, State Capitol Historic Site, Office of the Auditor General, Senate Fiscal Agency, and House Fiscal Agency and is not reflected in the expenditures of these statements.

Note 3 – COVID-19 Pandemic

The United States and the State of Michigan declared a state of emergency in March 2020 due to the global coronavirus disease 2019 (COVID-19) pandemic. The Michigan Legislature's workforce and business operations continued, with some changes to remote operations.

The COVID-19 pandemic created a projected General Fund shortfall in State revenues. In order to resolve this, an agreement was approved by the Michigan Senate and Michigan House of Representatives to reduce the overall Legislatures budget by 5%, which was allocated to the Senate and House of Representatives. This is amount is presented as a lapsed authorization. The total lapsed amount of funds for both the Michigan Senate and Michigan House of Representatives was \$9,281,700 (\$4,640,850 for each agency) for the year ending September 30, 2020.

Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

Independent Auditor's Report

To Management; the Michigan Legislature; and Mr. Doug Ringler, CPA, CIA, Auditor General Office of the Auditor General

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the combined statement of sources and disposition of the General Fund authorizations of the Michigan Legislature for the years ended September 30, 2020 and 2019 (the "financial statement") and the related notes to the combined financial statement and have issued our report thereon dated March 5, 2021.

Internal Control Over Financial Reporting

In planning and performing our audits of the financial statement, we considered the Michigan Legislature's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statement, but not for the purpose of expressing an opinion on the effectiveness of the Michigan Legislature's internal control. Accordingly, we do not express an opinion on the effectiveness of the Michigan Legislature's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the Michigan Legislature's financial statement will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Michigan Legislature's financial statement is free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statement. However, providing an opinion on compliance with those provisions was not an objective of our audit, and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

To Management; the Michigan Legislature; and Mr. Doug Ringler, CPA, CIA, Auditor General Office of the Auditor General

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Michigan Legislature's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Michigan Legislature's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
