

Office of the Auditor General (State of Michigan)

ADVANCED INFORMATION TECHNOLOGY ANALYST 12 POSITION

This position functions as a Senior IT Operations Administrator, directly supporting Office of the Auditor General (OAG) information technology infrastructure and daily operations management, technical control implementation, documentation and ongoing control enhancements employed within or inherited by all-OAG infrastructure and information technology (IT) systems, including cloud and user administration. This position assists the OIT security team in the development and implementation of monitoring or control verification processes that will ensure the necessary technical and security requirements are fulfilled to ensure the OAG's mission and business processes are aligned with established IT governance frameworks and best practices.

The Advanced ITA 12 pay is between \$30.32 - \$43.60 an hour with an attractive benefits package. We offer financial and other assistance to help you obtain applicable certificates. We also offer a full range of continuing professional education opportunities designed to improve and maintain your knowledge and skills.
