Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters

Mr. Patrick Gagliardi, Chair
Michigan Liquor Control Commission
Constitution Hall
Lansing, Michigan
and
Ms. Orlene Hawks, Director
Department of Licensing and Regulatory Affairs
Ottawa Building
Lansing, Michigan

Dear Mr. Gagliardi and Ms. Hawks:

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the Liquor Purchase Revolving Fund, Michigan Liquor Control Commission, Department of Licensing and Regulatory Affairs, as of and for the fiscal year ended September 30, 2021 and the related notes to the financial statements and have issued our report thereon dated February 22, 2023.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Michigan Liquor Control Commission's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Michigan Liquor Control Commission's internal control. Accordingly, we do not express an opinion on the effectiveness of the Michigan Liquor Control Commission's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Liquor Purchase Revolving Fund's financial statements are free from material misstatement, we performed tests of the Michigan Liquor Control Commission's compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Sincerely,

Laura J. Hirst, CPA
Deputy Auditor General
