## MICHIGAN STRATEGIC FUND

I. Audit recommendations the agency has complied with:

Finding 1 - Annual legislative reports did not include all required information.

II. Audit recommendations yet to be complied with: None

III. Audit recommendations the agencies disagree with: None

## MICHIGAN STRATEGIC FUND

### Finding 1

EGLE and MSF did not ensure all required information was included in their annual legislative reports, thereby potentially diminishing the reports' usefulness to the Legislature and other report users.

The Brownfield Redevelopment Financing Act requires BRAs to report to EGLE and MSF the financial status of their activities each *year*. The Act also requires EGLE and MSF to compile the information into a combined report submitted annually to the Legislature. Public Act 259 of 2020, effective December 29, 2020, amended the Act to require EGLE and MSF to include the cumulative amount of tax increment revenues (TIR) captured for each brownfield plan, among others, in their annual legislative reports.

Our review noted EGLE and MSF did not include cumulative TIR captured in its calendar year 2020 and 2021 annual legislative reports, as required. EGLE and MSF indicated *they* collected this information from BRAs for both years but had not updated the Salesforce system to properly add cumulative TIR capture amounts into the annual legislative report.

### **Recommendation**

We recommend EGLE and MSF ensure all required information is included in their annual legislative reports.

### **Final Response / Corrective Action Plan Update**

EGLE and MSF agree with the recommendation and has improved the process to ensure that all required information is included in the annual legislative report. The TIR data that should have been included in the annual legislative report is available in the Salesforce record system. However, this data was mistakenly omitted from the report when compiling the data due to insufficient management oversight. The MSF management review process for the annual legislative report has been modified to review specifically for this TIR information. Starting in fiscal year 2023, all required TIR information has been included in the annual legislative report as required by statute.
