Department Response

1. Audit finding #1 - Improvement needed to miAccount access controls.

A. DTMB agrees with and has fully complied with (Month/Yr): The Department of Technology, Management, and Budget (DTMB), Office of Retirement Services (ORS), agrees with and has complied with the recommendation as of June 2025

- The following was Final Audit Report's correction action: ORS will expand its efforts to fully establish and implement miAccount user access recertification controls.
- The Process Support team has completed process improvement sessions to identify and fill gaps experienced in the certification process. As a result, the following have been identified and implemented into this year's certification process:
 - A dedicated team has been assigned to oversee the certification process, ensuring consistency, continual progress, and accountability.
 - The team has assigned roles and responsibilities to implement a validation portion of the process.
 - DevOps was utilized to track the progress of each of the certifications. This included setup of user stories by the Analyst and approvals by the Business Process Owner. Dev Ops provided transparency and accountability to ensure timeliness and a documented process
 - A confirmation email was sent to all designees to confirm their certifications were completed.
 - The Process Support Business Process Owner had scheduled and regular standups to monitor the progress of the certification process to ensure further accountability.
- Date of compliance: (June 2025).
